

To Do List for Volvo Home Shipment

(For Those Who Are Taking Delivery in Europe)

Taking advantage of the Volvo Home Shipment Program is easy. Please always call or send an email 4-5 days in advance to confirm the use of the shipping service and to make necessary arrangements prior to handing over your vehicle. Please also check for national holidays. A few legal and other formalities have to be observed, however.

HERE'S YOUR DEPARTURE CHECKLIST:

1. You will receive a Volvo Home Shipment voucher with your new Volvo. Keep this valuable document, which proves that you are entitled to the home shipment service. Please note: Volvo Home Shipment voucher will be issued at delivery in Europe.
2. If drop off charges apply, pay in cash or traveler's checks only. Payments must be done in the local currency in cash, unless something else is stated.
3. Be sure the car is cleaned before handing it over, because the condition of the car will be inspected prior to transport. Please note: Should the car be dirty the shipping company may refuse to load the car, or the EPA (Environmental Protection Agency) may steam clean your car at your own expense.
4. Always sign the condition report before you leave the agent's office!
5. When handing over your car for shipment you will need to present the following documents/information:
 - The Volvo Home Shipment voucher
 - Proof of a U.S. social security number
 - U.S. address, phone number, and e-mail where you can be reached
 - Valid registration and automobile insurance
 - A copy of the Order Confirmation and/or Bill of Sale
 - Copy of your photo ID

Please note: The transfer time from the European Home Shipment Agent to the port of departure is 4 to 14 days, depending on the distance and the carrier. Your car will then be shipped on the first available vessel to your destination in the United States

TRANSPORT SCHEDULE FROM EUROPEAN PORTS TO NORTH AMERICA

DESTINATION	APPROX. SAILING SCHEDULE	APPROX. TRANSPORT TIME FROM DROP OFF TO NORTH AMERICAN PORT	APPROX. PORT HANDLING + INLAND TRANSPORT TIME IN NORTH AMERICA**
